5,700+ EWES

2024 Cashmore Oaklea December Ewe & Lamb Sale

Thursday 5th December
12 noon - Auctions Plus

With the continuing move to self replacing prime lamb systems, Cashmore Oaklea and our clients are pleased to offer over 5700+ of these purpose bred ewes to the market for the December 5th sale via Auctions Plus. Sired by top 10% performance recorded rams for high growth and outstanding fertility, these sound, moderate framed ewes offer great opportunity for establishing new flocks or for use as prime lamb dams. The flexibility of self-replacing lamb systems is becoming increasingly important as an alternative to purchasing high priced replacements annually. Whilst the past year has been an uncertain time for many sheep farmers in terms of the season and lamb prices, we are confident that the industry is moving in the right direction and believe that offering of ewe lambs and mature ewes this year will be a great opportunity for farmers that are establishing new flocks or expanding upon their current enterprises. The following information offers some background about the vendors and ewes in the sale and will assist your selections.

All the best with your purchases.

Don, John and the team at Cashmore Oaklea

SALE VENDORS

John & Brigita Keiller, Cashmore Park, Cashmore, VIC

Cashmore Park is a 1600 ha grazing property, located 12 km west of Portland, in a 830mm rainfall zone. We run 25000 DSE with a 90:10 sheep/cattle mix.

Our commercial flock consists of self replacing Performance Maternal ewes producing heavy trade carcasses, feeder lambs and breeding ewes. All ewes are pregnancy scanned with dry and wet/drys sold at marking. This practice has produced fertile, free lambing easily managed sheep with adult ewes consistently preg. scanning 180%. We have continued to develop and expand our stud flock of Cashmore Nudies, Southern Shedding Sheep, and we are pleased to offer top quality breeding females.

Nathan & Ashlee Lilley, Orford, VIC

Nathan and Ashlee Lilley with kids Ruby, Jack and Daisy farm 19 km north of Port Fairy, lambing down 1600 ewes in a wet environment at high stocking rates.

Our ewes are 100% Cashmore Oaklea blood with foundation ewes being purchased as multiple born ewes lambs from Cashmore Park, only purchasing rams at the top of the list on lamb plan data with strong emphasis on WR, PWWT, MWWT, EMD & PFEC.

This year we're offering up excess ewe lambs as large number of replacements were kept last year.

D & M Finnerty, Macarthur, VIC

We produce nudie lambs and angus calves on a range of owned and leased properties in SW Vic and the SE of South Australia. This year's offering is a full dispersal of classed in ewes from two properties where the lease is ending.

I started buying Cashmore Nudie rams in 2010 and now have a fit for purpose, self replacing ewe flock which get the same management as the cattle; drench, vaccine, preg test and marking. It's a simple system easily managed by one labour unit.

PJ Ham & GJ Lanman, Sleatbank Yulecart

Peter and Gab have been running nudies for around 10 years, joining approximately 2000 pure nudie ewes for a spring lambing. Ewes are run at high stocking rates on high rainfall properties either side of Hamilton and Woolsthorpe. Breeding has focused on feet structure, shedding ability, fertility and growth. No lambs are ever crutched or shorn pre sale and only the odd ewe gets a tidy up shearing once in her lifetime. With stable breeding numbers, there are now surplus quality ewe lambs for sale.
