4,500 EWES

2025 Cashmore Oaklea November Ewe & Lamb Sale

Thursday 6th November
12 Noon - Auctions Plus

With the continuing move to self replacing prime lamb systems, Cashmore Oaklea and our clients are pleased to offer over 4500 of these purpose bred ewes to the market for the November 6th sale via Auctions Plus. Sired by top performance recorded rams for high growth and outstanding fertility, these sound, moderate framed ewes offer great opportunity for establishing new flocks or for use as prime lamb dams. The flexibility of self-replacing lamb systems is becoming increasingly important as an alternative to purchasing high priced replacements annually.

With the industry moving forward in the right direction, we believe that offering of ewe lambs and mature ewes this year will be a great opportunity for farmers that are establishing new flocks, restocking or expanding upon their current enterprises. The following information offers some background about the vendors and ewes in the sale and will assist your selections.

All the best with your purchases.

SALE VENDORS

Don Pegler & Lyon Family, Oaklea Trust, Mt Gambier, SA

Don Pegler and Alex & Catherine Lyon farm south of Mt Gambier right on the coast with free draining limestone and flint based soils, but are prone to very wet and windy conditions during lambing. Their commercial maternal wether lambs are sold as suckers at heavy trade weights with the sister portion offered each year in the Cashmore Oaklea ewe sale.

These are June/July drop, giving clients a little more weight and age and allowing an earlier mating from these well grown ewe lambs. These lambs are all bred from sound CFA ex stud ewes that have been pushed from the flock by higher performing daughters. An entire drop of ex Stud ewes is also offered.

Our entire flock consists of 100% grass fed sheep, with no supplementary feeding.

Ken and Carmen Varcoe, Terenga, Kalangadoo, SA

Terenga is located 40km south of Mt Gambier, 30 km East of Millicent near Kalangadoo in 800 mm rainfall zone. Terenga runs 2300 Cashmore Oaklea blood composite ewes. Initially purchasing ewes from Cashmore Park in 2006, subsequently purchasing Cashmore Oaklea rams in the top 10% (recently 5%) of the Maternal Index.

The focus at Terenga has been to produce hardy highly fertile ewes (140-150%) with good early growth and worm resistance that perform under high stocking rates. Terenga's program has been centred on producing large numbers of quality breeders for those seeking replacements.

Nathan & Ashlee Lilley, Orford, VIC

Nathan and Ashlee Lilley with kids Ruby, Jack and Daisy farm 19 km north of Port Fairy, lambing down 1600 ewes in a wet environment at high stocking rates.

Our ewes are 100% Cashmore Oaklea blood with foundation ewes being purchased as multiple born ewes lambs from Cashmore Park, only purchasing rams at the top of the list on lamb plan data with strong emphasis on WR, PWWT, MWWT, EMD & PFEC.

This year we're offering up excess ewe lambs as large number of replacements were kept last year.

Jim, Andrea & Tom Pegler, Pegler Pastoral, Thornlea, SA

Pegler Pastoral Co have been breeding self replacing Cashmore Oaklea sheep since 2006. We farm at Thornlea in the South East of South Australia and have recently increased sheep numbers with a lease block. With additional land, this year we are running double the amount of ewes.

We purchased ewes in early 2025 from Cashmore Oaklea bloodlines and marked 175% from Ewes joined. This year we marked 155% in our original Cashmore Oaklea flock.

All ewes have had no supplementary feeding during lambing and have performed exceptionally well under trying conditions. Our ewes are the best mothers that we have seen. Easy care and produced fantastic lambs with exceptional growth rates. The last couple of years have really proved the ability of Cashmore Oaklea blood ewes to continue to thrive under variable seasons.

J & M Lilley - Carnham, Port Fairy, VIC

Josh and Mel Lilley farm 12 north west of Port fairy running self-replacing Nudies and maternal composites in wet environment with a high stocking rate.

We have been purchasing maternal rams for the last 8 yrs and nudies for the past 6 years. Selecting rams at the top of the list for WR,PFEC,PWWT,PEMD and fertility along with good type and conformation. Majority of our foundation ewes were purchased direct off Cashmore park or other leading Cashmore clients.

With excess numbers we will offer nudie and composite ewe lambs.

SELF REPLACING EWES - 4,125 MATERNALS, 375 NUDIES

Australia's leading Maternal Composite flock and long term clients are pleased to offer our annual surplus of ewe lambs and mature ewes. Sired by top performance recorded rams for high growth and outstanding fertility these sound, moderate framed ewes offer great opportunity for establishing new flocks or use as prime lamb dams. The flexibility of self replacing lamb systems is becoming increasingly important as an alternative to purchasing high priced replacements annually.
